

# FB STAINLESS STEEL CHAINS

PREMIUM QUALITY  
CONVEYOR CHAINS  
SINCE 1945

# When using a chain in very corrosive environments it is necessary to use a full stainless steel chain to reach the lifetime required.

FB Stainless Steel Chains are available in riveted, cottered and welded versions.

FB Ketjutekniikka has the special expertise to weld the challenging stainless steel material.

The Stainless Steel Chains are available both in standard and customer specific dimensions.

## FEATURES

- design according to customer specifications
- riveted, cottered, welded versions available
- combination of materials

## BENEFITS

- perfect fit to application
- consistent performance in demanding circumstances
- no contamination due to high level of purity

## TECHNICAL DATA

Materials	Corrosion resistance	Side Plates	Pins/Bushes/Rollers
AISI 420	+		X
AISI 304	++	X	X
AISI 316	++	X	X
Nitronic 60	+++		X

## INDUSTRIES

- copper refinery
- food industry
- pulp mills
- chemical industry

## TYPICAL APPLICATIONS

- copper refinery (anodes / kathodes)
- food raw material and final product conveyors
- fish cold room transporter
- conveyors working high alkaline or acidic circumstances

PREMIUM QUALITY  
CONVEYOR CHAINS  
SINCE 1945

We have spent many years working with Scandinavia's leading steel producers refining the specialized steels for our conveyor chains.

Our conveyor chains are manufactured using automatic assembly and robotic welders.

**We make the future of conveyor chains.**
